

**WE LOVE SOLVING CHALLENGES
THAT FREE OUR CUSTOMERS
AND MAXIMISE HUMAN POTENTIAL**

Capability Statement

Who we are

We love solving challenges that free our customers and maximise human potential. We're a team of over 70 creatives, innovators and engineers with the scalability to meet ever-changing market demands and product expectations.

What our customers say

The commitment of RML to high-quality service is at a level we had not seen before. They have been ready to help and be solution-orientated, even at times when things have got hard. The trust and reliance that has grown from this has us achieving numbers we previously did not think would be possible. We will be searching for opportunities to collaborate with RML in future.

Robbie Breen | Oceania Dairy Limited

Working with RML on an innovative solution was straightforward. Their in-house expertise in all aspects of the design and build added value to the project delivery process and made some tough challenges easier to overcome.

Will Rouse | Fonterra

Some of our other customers include:

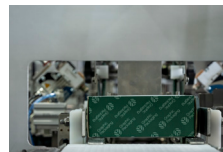

What we do

We design, build, service and support long-lasting, high-performance machine automation solutions and precision-engineered components.

We futureproof our engineering using robotics, industry-leading control systems and by providing world-class components to customers in the FMCG, dairy, industrial automation, and logistics sectors.
