OUR PROCESS

1 UNDERSTAND

We collaborate to understand your business. Do you need increased line capacity? Do you need packaging that is shelf-ready? We **ADD VALUE** when we know your business inside out.

2 DESIGN

Our team works with yours to develop a design that considers factory layout, restrictions, capacity, efficiency, and budget.

3 BUILD

We build our world-class machinery right here in New Zealand! Our innovative team also ensure that we are consistently producing high-functioning, long-lasting equipment.

4 INSTALLATION

Once your machinery is built, our skilled installation team work around your production schedule to get your equipment up and running with minimal disruptions to operations.

5 SERVICE & SUPPORT

Our service and support sets us apart. We are available at any time to keep your production line moving and are ready to help maintain your equipment for years to come!
